

antibacterial hand sanitiser

WITH HANDSAFE YOU'RE IN SAFE HANDS.

Health Pak have been manufacturing HandSafe sanitisers to protect hotel guests for over 20 years. We manufacture alcohol and non-alcohol sanitisers for a number of defence forces and other government agencies.

Our New Zealand made products have protected the hospitality industry through Sars and the Swine Flu and now we are here to help you through Covid-19.

HandSafe 70% alcohol sanitisers are:

- New Zealand made
- Instantly effective against 99.9% of germs
- Biodegradable formulations
- pH balanced

Bottom line, we've been making quality New Zealand made sanitisers for decades to protect you, your staff and your guests.

antibacterial hand sanitiser

HANDSAFE 35ML HAND SANITISER

One of the absolute keys to hotels re growing their occupancy in the coming months is going to be guest perception of sanitisation and safety. Nothing will be more important than hospitality being seen to be super proactive in this area. Which is why we make a New Zealand made 35ml, 70% alcohol gel sanitiser specifically to be placed in each room to give the guest an added feeling of security and peace of mind.

This cost effective, flip cap, 70% alcohol gel sanitiser will help protect your guest during their stay and subsequent travels.

HANDSAFE SANITISER TOWELETTES

Our Sanitiser Towelettes are a 70% alcohol based antiseptic individual wipe suitable for eliminating bacteria, fungi and most viruses from the surface of the skin. These towelettes are individually sealed and are an ideal portable option in any working environment that can be used to sanitise hands or surfaces instantly. Simply open the sachet, remove tissue wipe and clean hands or applicable surface.
